

## REQUIRED HEALTH STATEMENT

### Explorer Cruising

Dear guests:

As the date of your expedition approaches it is important to understand that there are no sophisticated medical facilities available in this area. Although the ship's staff include a qualified physician and nurse, and our onboard infirmary has basic medications and equipment, this expedition is intended for people in good health.

A Medical Certificate needs to be submitted by all passengers joining our voyages to the Antarctic Peninsula, South Georgia, the North East side of Greenland, and on the Trans-Atlantic Voyages (all voyages via the Atlantic Ocean), due to the remoteness of these areas. Guests who may experience difficulties for any reason, including disability, heart/pulmonary or other health conditions, are asked to consult with their personal physician about the advisability of joining this expedition. To do otherwise would entail unreasonable risk to your health and to the enjoyment of all guests aboard.

If you are taking medications regularly, you are advised to carry a full supply with you as these may not be available on board or in the countries visited. In addition, it is imperative for you to purchase medical insurance that covers you during your travels. In the event of a medical emergency your medical evacuation, if necessary and if available, is extremely expensive. You must therefore carry adequate travel insurance that will cover medical expenses and repatriation.

**Please complete the attached forms. The Medical Certificate is to be completed and approved by your personal physician not more than 8 weeks before your departure date. The completed forms must be presented to the ship's doctor upon boarding. Boarding will be denied if part III of the Medical Certificate is not approved by your personal physician. Even if the forms have been duly submitted and approved by your personal physician, the ship's doctor and the captain reserve the right to deny the boarding of guests who do not seem to be sufficiently fit for travel.**

Please note that all information contained in the Medical Certificate is intended as a medical reference for the onboard Doctor and will be retained by him/her throughout the duration of the voyage.

Thank you for your cooperation.

## GENERAL INSURANCE INFORMATION

### Explorer Cruising

All travelers must complete every section of this form.

Please bring this completed form with you on board the ship. Medical evacuation, if available, is expensive; therefore, it is necessary for you to have a Travel Protection Plan/travel insurance that will reimburse you for this cost.

If you have taken out a Travel Protection Plan/travel insurance, can you please provide the below details.

## PART I: TRAVELER'S HEALTH STATEMENT

I attest that I am in good general health, and capable of performing normal activities on this expedition. I further attest that I am capable of caring for myself during the expedition, and that I will not impede the progress of the expedition or the enjoyment of others aboard. I understand that this expedition will take me far from the nearest medical facility and that all travelers must be self-sufficient. With that understanding, I certify that I have not been recently treated for, nor am I aware of, any physical or other condition or disability that would create a hazard to myself or other members of the expedition.

*Please give this form along with your itinerary to your personal physician.*

**This part of the form must be completed in English or using international medical terms. Please do not abbreviate the words.**

Dear Doctor,

Our traveler is planning an expedition cruise to the areas where sophisticated medical facilities are unavailable. Each vessel carries a physician and a small infirmary. While not strenuous, travelers who participate on excursions must negotiate a steep gangway, get in and out of landing boats with assistance and be capable of walking a short distance over uneven and slippery terrain ashore. The areas being travelled in are very remote and where medevacs are possible can take up to 2 days and in some cases (such as South Georgia) medevacs are impossible, as the area is out of the range of helicopters and/or landing strips.

References to our Expedition Voyages: we ask you to take a quick look at the following links, just to give you an idea what kind of journey this is:

*According to our regulations, passengers in "poor" health condition are in high risk of complications during the trip and therefore they should not join the voyage. Master and Doctor will deny passengers to come onboard with a medical form incomplete and/or with an unstable physical health condition.*

We would like to be sure that each of our passengers is in adequate medical condition for the voyage and that our shipboard physician is fully alerted to any potential health problems.

We would appreciate your evaluation of the travelers' overall physical condition:

Poor  Fair  Good  Excellent

The travelers' ability to participate in this expedition and excursions:

Poor  Fair  Good  Excellent

Please elaborate on any medical conditions that you feel our shipboard physician should be aware of.
